## EDUCATION

---

**B.S. in Computer Science, Minor in Economics**

Expected May 2028

**University of South Florida**

GPA: 3.85

**Relevant Coursework:** Computer Organization, Program Design, Programming Concepts

## SKILLS

---

**Programming**

Python, JavaScript, C/C++, HTML, CSS.

**Software and Programs**

Git and GitHub, Arduino, Firebase, AWS, Node.js, React.

**Languages**

Portuguese (native), Spanish (fluent).

## EXPERIENCE

---

**Leadership and Problem Solving**

Aug 2025 - present

USF Resident Assistant

*Tampa, FL*

- Managed the safety, functionality, and well-being of a diverse community with 300+ student residents.
- Acted as the primary on-call responder for 4 residential buildings, responsible for addressing any immediate concerns, urgent facility issues, policy violations, and any form of crisis.
- Created a welcoming community for residents through large-scale community events, quality of life assessment with RA-residents one-on-one "Rocky Talks", and 24-hour availability.
- Integrated a team of 15 Resident Assistants and Senior Staff to organize community-wide educational events and manage the overall building's well-being and operations.

## PROJECTS

---

**Software Lead — EGN3000L Robot Project:**

- Engineered navigation firmware in C++ for a robot, utilizing dual ultrasonic sensors for real-time distance tracking and object following.
- Developed logic for obstacle avoidance and directional control, translating sensor data into motor commands.
- Integrated hardware components (motors, sensors, microcontrollers) with software to ensure seamless system communication.
- Collaborated in a cross-functional team to meet project milestones, managing version control and system debugging.

## AWARDS AND INVOLVEMENT

---

- Undergraduate Research Assistant: Optimizing open-source C++ and Python code for SolarPILOT to improve heliostat field energy absorption efficiency.
- Member of the Society of Hispanic Professional Engineers (SHPE), Google Developer Student Club, IEEE CS, and Association for Computing Machinery (ACM).
- 5 out of 5 on the AP Computer Science Principles, AP Calculus AB, and AP Macroeconomics exams.
- Recipient of the USF International Student Scholarship.
- Named on the USF Fall 2024 Dean's List for excellent academic performance.
- AP Scholar With Honor Award.
